For those with a COVID-19 diagnosis WITHOUT a lab test **OR** For those with symptoms consistent with COVID-19 WITHOUT medical evaluation

MUST STAY HOME

MUST STAY HOME

GET TESTED FOR COVID-19

What were your test results?

NEGATIVE

MUST STAY HOME

Negative test results but **diagnosed with other illness** (ie. strep throat)

Stay home until symptoms have improved. Follow specific return guidance from health care provider. If symptoms related to a pre-existing condition change or worsen, talk to a health care provider to determine next steps. Siblings and household members DO NOT need to stay home for 10 days. If you were previously quarantined for a COVID exposure, you must stay home until the duration of the quarantine.

Negative test results but has symptoms with **no other diagnoses**

Stay home until they are feeling better and they have not had a fever for 24 hours WITHOUT using any medication to reduce fever. Please provide a copy of the negative test for the return of school. If you were previously quarantined for a COVID exposure, you must stay home until the duration of the quarantine.

POSITIVE

MUST STAY HOME

Stay home at least 10 days since symptoms first appeared AND until no fever for at least 24 hrs without medication AND improvement of other symptoms. **Siblings and household members - see above**

TO COME BACK TO SCHOOL...

....student needs a negative COVID test **OR** a MD note which states an alternative diagnosis **OR** an MD note that states child does not have COVID **OR** they need to stay home for 10 days and be fever free for 24 hours without the use of medication and symptoms are better
