

## OVERVIEW

The District held the fourth and final community focus group meeting on June 19. Approximately 10 community members were in attendance to learn about and discuss the potential next steps in the District's master planning process.

Bray Architects began the meeting with a process recap highlighting the larger timeline of master planning process. It was noted that the results of the community survey provided some clear direction that Option #1 as described in the survey was the preferred master plan option. Additional results from the community survey were presented by the Donovan Group. The updated master plan was then presented with conceptual floor plans for each building, see scope listed below. Residents asked a variety of questions throughout the presentation and responses were provided by Bray, District, and Donovan Group team members.

## UPDATED FACILITY MASTER PLAN

### Pewaukee Lake Elementary

- Renovation to create secure entry sequence
- Additions and renovations to support enrollment growth
- Creation of academic houses within grade groupings

### Horizon Elementary School

- Addition of gymnasium for physical education programming
- Classroom additions to support enrollment growth

### Asa Clark Middle School

- Addition and renovation to create secure entry sequence
- Classroom addition to support sixth grade
- Additions and renovations to support larger cafeteria/music classrooms
- Addition to support large group instruction and flexible academic spaces

### Pewaukee High School

- Addition to create secure entry sequence
- Renovation and addition to support larger library and academic commons
- Addition of gymnasium for physical education programming

The District also noted that the Board of Education would be finalizing the overall master plan and reviewing phasing strategies to consider possible first phase project(s) as part of upcoming meetings. The Board will discuss a possible referendum and potentially take action on resolution language as part of their July 30 meeting.

# FOCUS GROUP #4 SUMMARY

June 19th, 2018

**Thank you to all who participated in the focus group meetings, your feedback on the potential next steps on the District's master planning process is appreciated!**
